Introduction

Krafted by investors, for investors.

The best interests of future holders and investors have been kept in mind while 'krafting' the tokenomics of KTY Token.

For example...

Like we take the sole responsibility and provide the investors with a guarantee that the total token supply shall never be tampered with.

The total supply might get reduced from 200M due to the consequence of several upcoming future token burns but shall never increase whatsoever.

As investors and NFT platform developers, we prefer rare tokens the same way we love rare collectibles.

1 14% Foundation Reserve

A total of 28 Million KTY tokens are to be unlocked monthly, for 60 months. (ie 466666.667 KTY tokens each month)

Foundation reserves the right to burn from this reserve.

2 20% Public Offering

A total of 40M KTY will be offered to people as 'seed offering' in total 4 seed phase rounds.

3 10% VC Offering

20M KTY will be offered to VCs in various private rounds through OTC trades.

4 02% Refferal

4M KTY tokens will be distributed as referral rewards on the main platform on BSC and TRON combined.

5 8% LP Incentive

A total of 16M KTY tokens will get distributed as rewards to KTY liquidity providers.

6 30% Trader's Incentive

A total of 60M KTY tokens will get distributed as an incentive to NFT buyers, sellers, and holders over a minimum span of 25 years and a maximum span of infinity.

The reward distribution and mining will be done based on weekly platform revenue.

7 10% Creator's Incentive

A total of 20M KTY tokens will get distributed as an incentive to NFT creators over a minimum span of 25 years and a maximum span of infinity.

The reward distribution and mining will be done based on weekly platform revenue.

KRAFTLY

8 6% Community Rewards

A total of 12M tokens will get distributed as a community engagement program. This program includes activities, such as NFT creator's contests, trade contests, community moderation, Twitter giveaways, bug bounty, etc.
